

# WEED CONTROL MEMBRANE **WEEDCHECK**

- Controls weeds
- No need for chemicals or weed killers
- Allows air, nutrients and water to permeate through to the soil
- Creates healthy and fertile soil
- Contributes to low maintenance gardening

## **15 YEAR GUARANTEE**

When covered with a mulch

### **USES**

- Aggregate areas/scree areas
- Flower and shrub beds
- Vegetable beds & protection
- Lining plant containers
- Separating corks from compost

### **USEFUL TIPS**

Best to 'spit' WEEDCHECK vertically at the edges to a depth of 150/200mm

Overlap joins by 120mm

WEEDCHECK is for pedestrian use only. For traffic applications use GROUNDCHECK or STRATACHECK

Although WEEDCHECK allows water to pass through, it is not suitable for drainage applications. STRATACHECK should be used.
